

SUPERTECHNOCRANE 15'

17' Max Lens Height

The SuperTechno 15' crane is a small telescopic camera crane ideal for tight locations, crowded sets, or confined spaces.

The chassis is small enough to easily fit through most standard doorways and travel through hallways.

The SuperTechno 15' crane saves time with easy assembly and take-down without sacrificing camera payload capabilities.

Even with its small size, this crane supports most 3D rigs, remote heads, and camera packages.

SPECIFICATIONS

Dimensions

The chassis is 3'7" (1.1 m) long by 2'7" (0.78 m) wide, and minimum 5'8" (1.7 m) high. From post to nose, the retracted arm length is 3'3" (1 m), and 13'10" (4.21 m) extended.

Weights

The total all-in weight is 1,135 lbs (515 kgs). The crane arm weighs 286 lbs (130 kgs), the post weighs 68 lbs (31 kgs), and chassis weighs 99 lbs (45 kgs).

Ranges

The telescopic range is 9'5" (2.86 m) at speeds up to 2'4" /sec (2.26 m/sec). The arm has a 60° max tilt angle. The maximum camera lens height is 17' (5.18 m) overslung. The post range is 1'2" (0.36 m).

Accessories

Mountable on the Taurus mobile base or track. A variety of mounts are used to connect heads, including the nose plug, out front, Cineflip, and the Kornercrane Level. HME wireless headsets provide clear communication for crane operation.
